BENTLY NEVADA MODEL-SPECIFIC PRODUCT

177230-16710-65

177230-16710-65 is a loop-powered seismic transmitter in the Bently Nevada 177230 Seismic Transmitter. This independent product manual summarizes the exact decoded configuration for procurement and installation review.

PRODUCT FAMILY	PRODUCT TYPE
177230 Seismic Transmitter	**loop-powered seismic transmitter**

Exact model configuration

CONFIGURATION FIELD	DECODED VALUE
Part number	**177230-16710-65**
Manufacturer	**Bently Nevada**
Primary output	**4 to 20 mA loop-powered signal**
Integration	**PLC, DCS or SCADA control system**
Commissioning	**No field configuration or adjustment stated for the family**
Ordering check	**Confirm measurement option, cable and approvals**
Country of origin	**USA**

Application fit

- Use 177230-16710-65 only in the documented 177230 Seismic Transmitter application.
- Confirm the complete part number, mounting, cable routing and matched-system requirements before replacement.
- Verify the installed unit and current Bently Nevada documentation before installation or commissioning.

SYSTEM-LEVEL PERFORMANCE	INSTALLATION NOTE
Primary output: 4 to 20 mA loop-powered signal **Integration:** PLC, DCS or SCADA control system **Commissioning:** No field configuration or adjustment stated for the family	Performance and configuration information applies only to the exact matched transducer or monitoring system. Do not treat product-only ordering data as a complete-system calibration certificate.

MODEL-SPECIFIC ENGINEERING REFERENCE

Before ordering 177230-16710-65

Use this page as a controlled procurement checklist. It does not replace the manufacturer datasheet, installation instructions or approval certificate.

Ordering limits and selected values

CONFIGURATION FIELD	DECODED VALUE
Primary output	**4 to 20 mA loop-powered signal**
Integration	**PLC, DCS or SCADA control system**
Commissioning	**No field configuration or adjustment stated for the family**
Ordering check	**Confirm measurement option, cable and approvals**
Country of origin	**USA**

Procurement checklist

- Confirm the complete ordering code 177230-16710-65 and readable nameplate before shipment.
- Confirm the product family and product type against the installed item.
- Confirm every decoded length, thread, connector, mounting and approval option.
- Confirm compatibility with the complete measurement or monitoring system.
- Confirm approval markings and certificate scope for the installation location.

DIRECT SALES INQUIRY

Send the full model **177230-16710-65**, quantity, delivery country, and a clear nameplate or installation photo.
