GE FANUC MODEL-SPECIFIC PRODUCT

IC693CPU340

IC693CPU340 is a GE Fanuc Single-Slot CPU Module. This independent manual keeps the exact model visible and summarizes product-specific information recorded for procurement and configuration review.

PRODUCT FAMILY	PRODUCT TYPE
Series 90-30	**Single-Slot CPU Module**

Exact model configuration

CONFIGURATION FIELD	DECODED VALUE
Displayed model	**IC693CPU340**
Manufacturer	**GE Fanuc**
Product family	**Series 90-30**
Product type	**Single-Slot CPU Module**
Processor	**20 MHz 80C188XL**
User program memory	**32K bytes maximum**
Baseplates per system	**5 total: 1 CPU + 4 expansion/remote**

Application fit

- Use IC693CPU340 only for the documented single-slot cpu module application.
- Confirm the complete part number, electrical ratings, wiring, mounting and compatible system before replacement.
- Verify the supplied unit and current GE Fanuc documentation before installation or commissioning.

PRODUCT-SPECIFIC REFERENCE	INSTALLATION NOTE
20 MHz 80C188XL 32K bytes maximum 5 total: 1 CPU + 4 expansion/remote	Allow 490 mA from the +5 VDC supply. The built-in communications connection uses the PLC power-supply connector; do not assume an integrated Ethernet port.

MODEL-SPECIFIC ENGINEERING REFERENCE

Before ordering IC693CPU340

Use this page as a controlled procurement checklist. It does not replace the manufacturer datasheet, installation instructions or approval certificate.

Ordering limits and selected values

CONFIGURATION FIELD	DECODED VALUE
Manufacturer	**GE Fanuc**
Product family	**Series 90-30**
Product type	**Single-Slot CPU Module**
Processor	**20 MHz 80C188XL**
User program memory	**32K bytes maximum**
Baseplates per system	**5 total: 1 CPU + 4 expansion/remote**

Procurement checklist

- Confirm the complete ordering code IC693CPU340 and readable nameplate before shipment.
- Match the single-slot CPU to the Series 90-30 baseplate and record all expansion or remote racks.
- Check the 32K-byte program requirement, 9999-word register space and +5 VDC power budget.
- Identify required CMM or PCM modules and communications software before replacement.
- Preserve RAM/Flash contents, CPU configuration and clock settings before removal; verify nameplate approvals.

DIRECT SALES INQUIRY

Send the full model **IC693CPU340**, quantity, delivery country, and a clear nameplate or installation photo.
